Angels protect you!

All creatures can become messengers of God, angels, that he sends us when we need them.

What is impossible to humans is possible with the force and power of angels.

May an angel be there to show you the right way. May an angel be next to you to take you by the hand and protect you.

We cannot see the angels, but it is sufficient that they see us.

Angels appear when they want to. They always appear unexpectedly and often only then when you do not expect it anymore.

I wish you all the best for
your future.

Health is the most valuable possession of humans!

One who can say that with full conviction is Waltraud Bleile, born on August 11, 1962 in Lindau/Lake Constance. She was confectioner. She has the power to heal since 1999.

I want to use the power God gave me to relieve pain, stop illnesses, or heal with God's will.

Waltraud Bleile is not a physician, she does not diagnose illnesses and always warns from stopping medication prescribed by the doctor.

Waltraud Bleile regards the gift of being able to help seriously ill people as a present from Above.

Until this day, many people from around the world have lain all of their hope into the healing hands of Waltraud Bleile.

Frequently, these people are desperate cases that can no longer be helped by physicians.

Waltraud Bleile as able to give many of them their quality of life back, quite often even full health.

How does Waltraud Bleile work?

She lays her hands on the respective areas so that the energy can flow. The patient feels pleasant warmth, often also a tingling sensation.

How do people find Waltraud Bleile?

They hear about the healing powers of Waltraud Bleile through numerous publications in magazines. The patients call and collect more information. The illness is discussed and dates are made. The patients arrive on Sunday, and move into a beautiful holiday apartment on location. Single patients usually move into a room with breakfast in the country hotel.

If the patient arrives via train we have arrangements for a pick up service so that the patient can arrive to his appointments on time. The extent of treatment includes nine treatments: From Monday to Friday morning 2x per day. There are no group sessions.

In case of serious diseases the patients spend two weeks in treatment.

Waltraud Bleile can also help animals!

Regarding animals, Waltraud Bleile only works via photographs (distance healings). As many patients are allergic to animals (hair), animals may not enter the facilities.

How is the success rate?

The success rate is very high. In average 98%, but of course, no guarantee can be given. She tries to help everybody best possible.
